

I am a passionate Computer Scientist & (functional) programmer born in Bratislava (Slovakia), presently based in Sweden's Gothenburg. I'm also interested in software verification, linguistics, design, and teaching.

Education

- Master of Computer Science**, *Chalmers University of Technology* Expected 2027
– (Theoretical) computer science: algorithms, functional programming, compiler construction, and type theory.
- Bachelor of Software Engineering**, *Chalmers and Gothenburg University* 2022 – 2025
– Grade: VG (pass with distinction); Minor: Mathematics (60 ETCS)
– Thesis: "Evaluating Trade-offs of Quantized LLMs for Requirements and Test Alignment"*

Work Experience

- Software Engineering Intern** Mar 2025 – Sep 2025
Tesla, Inc. *Amsterdam, Netherlands*
– Helped to develop full-stack diagnostic interfaces for Tesla car touchscreens for vehicle maintenance.[†]
– Developed software instruments that facilitate Service automation for (among others) Robotaxis by connecting service & development teams.
- Developer** Oct 2024 – Mar 2024
Algeno AB *Gothenburg, Sweden*
– Focused on developing AI-driven tools to optimize energy use and temperature control in homes and workplaces.
- IT Consultant & Developer** Dec 2022 – Nov 2023
Chalmers Teknologkonsulter AB *Gothenburg, Sweden*
– Led a project for a mobile-first application for the Regional Cancer Center (Sweden) aimed to help detect melanoma among patients.
- Fullstack Web Developer** May 2021 – Jun 2023
Klas, s.r.o. *Bratislava, Slovakia*
– Designed and developed the company's website & trivia platform for the public domain with contemporary visuals.

Language Proficiency & Skills

- Languages:** Slovak, English (Native); Czech, Swedish (C1); German, Dutch (B1-B2)
- Programming Languages:** Python, Haskell, TypeScript, Rust, C/C++, Java, Assembly, Bash/Shell, R, MATLAB
- Tools:** Scikit-learn, PyTorch, Next.js, React (Native), Docker, Kubernetes, (p)SQL, Linux/Unix/BSD, Git (GitHub/GitLab etc.).
- Other:** DevOps, Robotics, Project Management, Graphic & Product Design, Teaching, Academic Writing, Languages and Translations.
- Awards & Certificates**
- Winner of *ActInSpace* Hackathon (Sweden), 2022
 - Swedish as Second Language, *Folkuniversitet*, 2024
 - Harvard's CS50 Introduction to Computer Science
 - The Duke of Edinburgh's Award; TOEFL iBT

Projects

- | AppointDent | 2024 | PastExams | 2023 – 2025 |
|---|------|--|-------------|
| – A full-stack website application using a microservices architecture for residents of an area to manage dentist appointments and provides dentists with tools to organize their schedules efficiently. | | – An automated exam archival system with a CI/CD pipeline and a set of shell scripts to maintain a monorepo and generate a searchable static (Jekyll) website of examination materials for students. | |
